Next day consultations
are available.

Rush University System for Health

Rush Vascular Surgery

Rush University System for Health is a leader in vascular surgery.

Our board-certified surgeons are skilled in the latest advanced techniques to treat the entire spectrum of arterial, venous, and lymphatic disorders. Patients have access to a network of Rush surgeons and vascular medicine physicians throughout the Chicagoland area.

Our Capabilities

Advanced Surgical Options

Rush surgeons are trained in the latest endovascular technology and open surgical techniques. They are highly skilled in carotid stenting, thoracic outlet decompression, arterial reconstructions, lower extremity arterial bypass surgery and venous procedures.

Hybrid Operating Room

Physicians at Rush University Medical Center perform vascular surgeries in a state-of-the-art hybrid operating room that integrates minimally invasive procedures with open surgeries to streamline patient care and reduce length of stay.

Timely Care

Rush's Next-Day Access program virtually connects patients with a provider within 24 hours of an appointment request. In-person visits are typically scheduled within one week.

Vascular Quality Initiative

Rush participates in the Vascular Quality Initiative to improve the safety and effectiveness of vascular care by collecting and sharing data on risks, variables and outcomes.

Vascular Medicine and Wound Care

Our Rush specialists diagnose and manage extremity non-healing wounds. Using a comprehensive approach, our team addresses the entire patient including risk factors management, nutritional needs and treatment options.

Multidisciplinary Conference

Rush hosts a multidisciplinary conference to review cases. Our patients have confidence knowing our team of specialists have provided input on the surgical and care plans.

Locations

Rush University Medical Center

1725 W. Harrison St.
Suite 1156
Chicago, IL 60612

Rush Copley Medical Center

2040 Ogden Ave., Suite 340
